DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 9-15 are rejected under 35 U.S.C. 102(b) as being anticipated by HINCHLIFFE et al. (5,657,963).

As to claims 1-7 and 9-15, HINCHLIFFE (Figs. 20-21, 22a, 24-26; col. 14, lines 42-45) discloses a trocar including housing 611, shaft 642, pot-shaped seal 618 having disk-shaped portion extending transversally to a longitudinal axis of the trocar with central opening 620 enlargeable in response to a spreading device. The spreading device comprises sleeve 628 with ring-shaped facial end 639, lever 667 activatable from outside of the trocar and fixable in different positions corresponding to an open and closed positions of seal 618 (see Fig. 20, for example), intermediate positions between the open and closed positions, guide/slot-link guide 669 for guiding slidable member 663, pin 655b and spring 655a as recited in the claims. Notice that the claims do not clearly specify any characteristics of the intermediate positions of the lever, therefore, any position of lever 667 between the open and closed positions of seal 618 can be considered as an intermediate position as recited in the claims.

Art Unit: 3731

Allowable Subject Matter

Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 16 is allowed.

Response to Amendment

The amendment of the claims under 37 CFR 1.132 filed 9/23/2004 is insufficient to overcome the rejection of claims 1-7, 9-15 based upon HINCHLIFFE et al. (5,657,963) as set forth in the last Office action because the claims do not clearly specify any characteristics of the intermediate positions of the lever, therefore, any position of HINCHLIFFE's lever 667 between the open and closed positions of seal 618 can be considered as an intermediate position as recited in the claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3731

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
